

**Quality Management Plan** – a brief template is provided below (you can modify it as needed).  
**The description of your quality management plan should be related to the project.**

The contents of quality management plan for group assignment part B:

**1. Purpose of The Project Quality Management Plan**

**2. Quality planning**

2.1 Define project quality *(identify and explain quality standards that your project is going to follow, and expectations for project stakeholders)*

2.2 Measure Project quality *(how will you measure project quality?)*

**3. Quality Assurance**

3.1 Analyze project quality *(identify and explain -- what will you analyze, how will you analyze, and how will you apply lessons learned?)*

3.2 Improve project quality *(identify and explain ways of doing things better, with lower cost, and/or faster. Also, identify ways of eliminating unsatisfactory performance.)*

**4. Quality Control** *(identify and explain monitoring and controlling actions that will be conducted to control quality)*
