Looking for job change : HR & OD Professional

7d

I encourage employees to leave after they have worked 8 hours.

I believe that working late will result in:

1. A decrease in efficiency and creativity.
2. An increasingly unhappy family.
3. And ultimately an increased desire to work elsewhere.

Believe it or not, I want employees to have a life outside of the office.
happy employees = higher quality work.

Do you agree with this style?
